

Mathematics 396 Final Exam Winter 2012

Problem solving

- Solve **five** out of the given seven problems. Use the given problem sheets and blank paper as needed.
- Each team member is responsible for writing up:
 - *at least one solution*
 - but
 - *no more than two solutions*

Assessment

- Each problem will be scored using the *Final Exam Scoring Rubric*—back of this page.
- The scoring rubric does not have a reflection category, but it is always a good idea to check your answer even if it is not part of the assessment.

To turn in your work

- Write your team number on *each* of the seven turn in problem sheets.
- Write your team number and the names of your team members on the *Final Exam Cover Sheet*
- Fill in the problem numbers your team chose on the cover sheet and write the names of the team members who have written up the problems in the indicated boxes.
- For each problem, STAPLE any additional pages behind the problem page.
- Use a PAPERCLIP and attach together for turn in
 - Your filled out *Final Exam Cover Sheet* (front page)
 - The **five** problems your team has solved
 - The two blank (or crossed out) problem pages your team is not solving
 - The three sheets listing all of the final problems
